# Avaya Wireless Handset 3735

**Suitable for  
Medium to  
High Demand  
Environments  
Such as Hospitals,  
Retail & Enterprise**

Avaya Wireless Handset 3735 features enterprise-grade telephony with professional messaging, Bluetooth, and personal alarm all in one very capable DECT handset. The display backlight helps to operate and use the handset in complete darkness.

Besides excellent telephony, its advanced messaging capabilities make it ideal for interacting with colleagues and even automated equipment. It is available with professional messaging (Standard version) and to an advanced model that includes personal alarm capabilities (Alarm version).

The handset is more than a telephony and messaging handset. It also features an alarm button that can be used / configured to trigger duress calls. DECT location functionality means colleagues are notified of the handset's location—making the Avaya 3735 particularly suitable for lone workers.

Avaya Wireless Handset 3735 supports Bluetooth Hands-Free Profile (HFP) version 1.6 to allow using Bluetooth headsets with the handset. The handset supports the call setup service including Basic Push To Talk (PTT Voice). The Basic PTT is presented as an incoming call when setup. Acoustic localization signal (ALS) is possible to configure the handset when an alarm is activated.

### Avaya Wireless Handset 3735 Features At a Glance:

- Bluetooth
- Push-to-talk (PTT)
- Interactive messaging
- Push-button alarm<sup>1</sup>
- DECT Security (encryption)
